Java Assignment

Program 1-Subtract:

```java
public class Subtract {

public static void main(String[] args) {

        Scanner scan=new Scanner(System.in);

        System.out.println("enter the numbers:");

        int a=scan.nextInt();

        int b=scan.nextInt();

        if(a>b)

        {

                System.out.println("result is:"+(b-a));

        }

        else

                System.out.println("result is:"+(a-b));

        scan.close();

}

}
```

Output:

enter the numbers:

3

5

result is: -2
